REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL Stocks, Money, Exchange, Bonds, Grain,

Cotton, Provisions, Etc.

These Are Closing Sales Each Day.

New York, Sept. 29.—The stock market was a narrow and professional affair to-day, which ended with a show of animation and strength on account of an active demand from the short interests, which covered on the bank statement. This element saw encouragement in the fact that the inroad upon the banking surplus was restricted to less than \$4,000,000, while a much heavier depletion was expected. This sentiment seemed not to be affected by the fact that a decline in the reserve requirement of over \$3,000,000, was responsible for this result, which was brought about by a contraction of \$5,668,400 in the outstanding loans of the banks. The actual decrease in cash was slightly in excess of that of last week, as had been expected. Besides the liquidation in the stock market, a large volume of time loans is said to be maturing at this time, and the proceeds of these banks are inclined to hold for higher rates, as explained below.

The prospect of favorable developments in the coal strike situation over Sunday increased the disposition of the bears to cover, and the recovery in prices from the early low level ran between 1 and 2 points for the principal active stocks, not a few of which showed net gains of a point or more. The early selling of stocks was encouraged by selling for foreign account and by rumors of financial difficulties in Berlin, where the exigencies of a settlement caused a jump of 2 per cent. In the rate for short discount bills. The steel stocks were rather firm throughout.

Intimations from officials of several of the great trunk lines of an intended to the great trunk lines of an intended to the great trunk lines of an intended the great trunk lines of an intended to the great trunk line New York, Sept. 29 .- The stock mar-

and by rumors of financial difficulties in Berlin, where the exigencies of a settlement caused a jump of 2 per cent. In the rate for short discount bills. The steel stocks were rather firm throughout.

Intimations from officials of several of the great trunk lines of an intention to provide for the year's need for the the present price of \$26 for steel rails helped the group. Large receipts of raw sugars, doing away with some of the danger of a shortage helped Sugar. A feature was the further marking down of sterling exchange rates by the exchange bankers, in spite of the nominal character of the Saturday market.

The bond market was weak in the earlier part of the week, but recoveries in some issues made the market irregular later. Dealings were not large at any time.

United States new 4's, registered, advanced ½ and the old 4's and 5's decilined ½ per cent, in the bid price. The total sales of stocks to-day were 135,000 shares.

COTTON SEED OIL.

New York, Sept, 29.—Cotton seed oil inactive but steadylly held. Prime crude barrels nominal; prime summer yellow, "34 asked, prompt; off summer yellow, "34; prime winter yellow, 41@ 12c.; prime white, 40@41c.; prime meal, 26.

CHICAGO MARKET.

The Cotton Markets.

The Cotton Markets.

NEW YORK COTTON MARKET.
New York, Sept. 29.—The cotton market opened with prices 7 to 13 points higher and scored additional gains immediately following the call on healthy buying for all branches of the trade. Sentiment was buillish on reports from the crop center that indication daily pointed more clearly to a short yield, to no crop of importance and to an exceptionally early completion of picking and marketing. The English market advices were decidedly better than expected. Europe bought in our market as well as in Liverpool. The weekly statement of the Chronicle was readily summed un as strikingly builish and private cables declared the report of that paper had done much to advance prices there. As for the crop movement, receipts at the ports and many of the interior towns fell below predictions, doubtless due largely to scarcity of cars as exporters are known to have purchased enormous lines of staple for shipment during the next three months. The inability of rail-roads to meet the demand of shippers bids fair to become an important factor in the near future. Wall street appeared quite conspicuousi—as a buyer of the winter months; the South purchased the remote deliveries. Fall River reported a firm but quiet market for cloth. The market for futures closed steady, with prices net 9 to 15 points higher.

New York, Sept. 29.—Cotton futures process steady at the advance Octo.

GREAT VALUE OF SEAMEN.

GREAT VALUE OF SEAMEN.

A LIGHT-VESSEL FOR "THE TAIL OF THE HORSESHOE—OTHER MARINE NEWS.

Notice is given that on or about October 15, 1900, light-vessel No. 71 will be temporarily established in about 5½ fathoms of water, approximately in the position now ocupied by Junction bell buoy, to seaward of the footh-easterly end of the Tail of the Horse-shoe, inside the entrance to Chesa-peake Hay, and at the junction of the main ship channel up the bay with the channel to Hampton Roads.

The vessel will show two fixed white lights, one from each masthead, and each produced by three lens-lanterns encircling the masthead. The focal plane of each light will be 55 feet above the sea, and the lights will be visible 13 miles in clear weather, the observer's eye 15 feet above the sea.

Light vessel No. 71 is a flush deck steam vessel, has two masts, schooner rigged, no bowsprit, and has a black smokestack and the fog signal between the masts. There is a circular galiery at each masthead, under the lens-lanterns. The hull is painted red, with "71" in white on each bow.

During thick or foggy weather a 12-inch steam chime whistle will sound blasts of five seconds' duration, separated by silent intervals of fifty-five seconds, thus: Blast 5 seconds; silent interval, 55 seconds:

The approximate geographical position of the vessel, as taken from Chart No. 131 of the United States Coast and Geodetic Survey, will be: Latitude north, 36 degrees, 58 minutes, 36 seconds; longitude west, 76 degrees, 62 minutes, 39 seconds.

Bearings and distances of prominent objects from the proposed position of the vessel are: Cape Charles old tower. NE. ½ N. 114 miles: Cape Charles ight vessel, ENE. ½ E., 17 miles: Cape Henry lighthouse, SSE. ½ E., 3% miles; Thimble Shoal lighthouse, WNW. ½ W., 174 miles.

JUNCTION BELL BUOY.

On the same date this red and black horizontally striped bell buoy, off the southeasterly can of the Tail of the Horseshoe, entrance to Chesapeake
Bay, will be discontinued.

Bearings and distances of prominent proximately;

The establishment of a light ship at this dangerous point will be hailed with satisfaction by seamen. In the past a number of vessels have been nurt about the "Tall of the Horseshoe" in dark and heavy weather for want of warning. This proposed light will obviate these troubles in a measure in the future, and doubtless save many dollars as well as lives. The Lightnouse Board has done well in this matter, and it is to be trusted that a light ship will be hereafter kept constantly on duty.
